core crew that scales up for big jobs

Union City
serving the whole Bay Area

HOW HE WORKS

MOST OF THE WORK COMES BY REFERRAL.

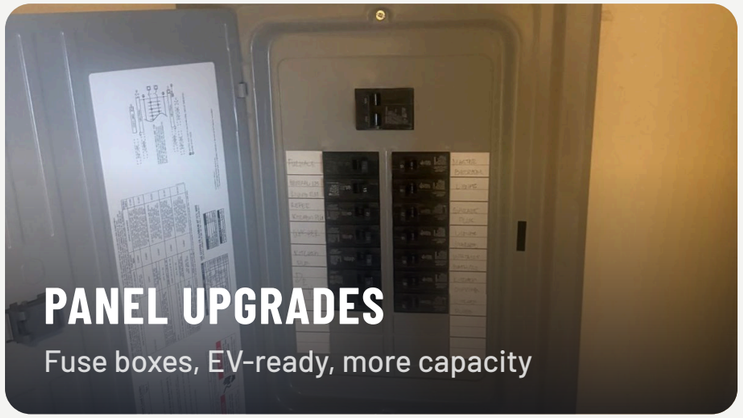

1. **SHOWS UP WHEN HE SAYS HE WILL**
2. **TELLS YOU THE TRUTH, UP FRONT**
3. **PULLS THE PERMIT. EVERY TIME.**

> *“Tell me what you’re trying to do. I’ll tell you straight whether it can be done, and then I’ll figure out how.”*

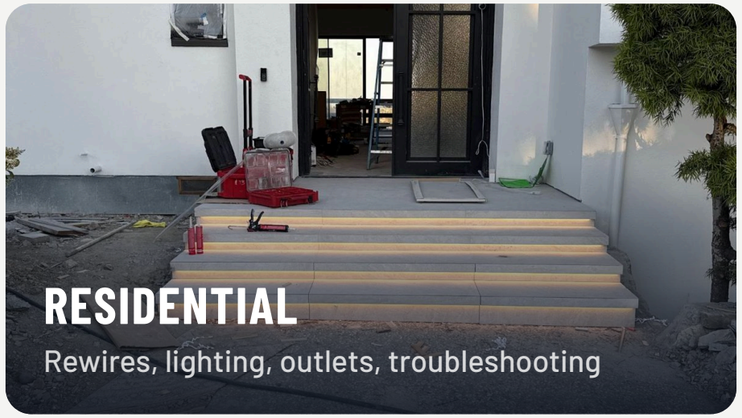

WHAT WE DO

HOMES, BUSINESSES, AND THE HARD STUFF.

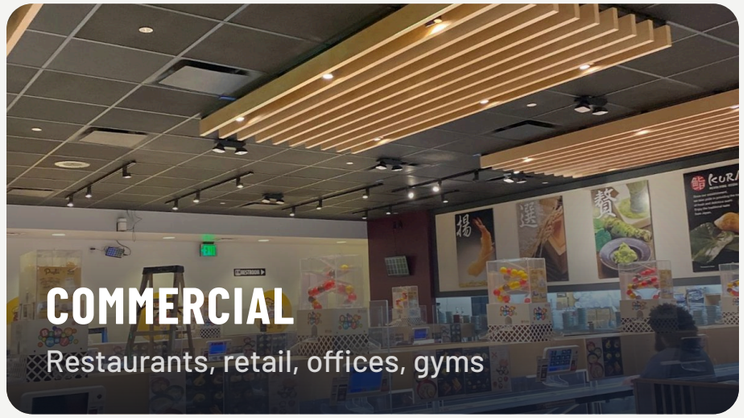

PANEL UPGRADES

Fuse boxes, EV-ready, more capacity

RESIDENTIAL

Rewires, lighting, outlets, troubleshooting

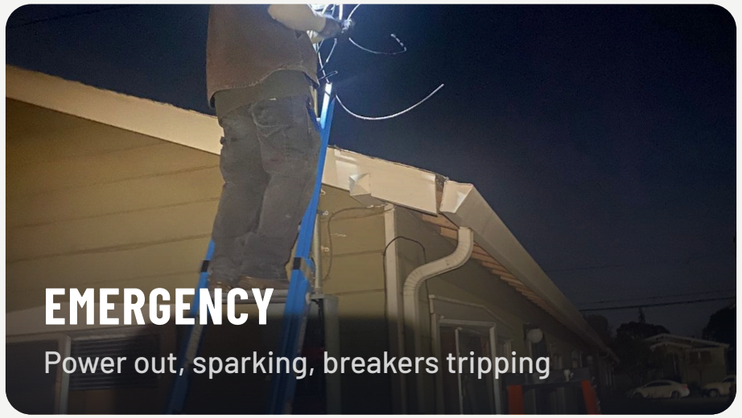

COMMERCIAL

Restaurants, retail, offices, gyms

NEW CONSTRUCTION & REMODELS

Rough-in to final inspection

EMERGENCY

Power out, sparking, breakers tripping

CUSTOM WORK

The jobs other guys say no to

CUSTOM WORK

THE JOBS OTHER GUYS SAY NO TO.

“On this kind of job, electrical becomes an art.”

LOSI

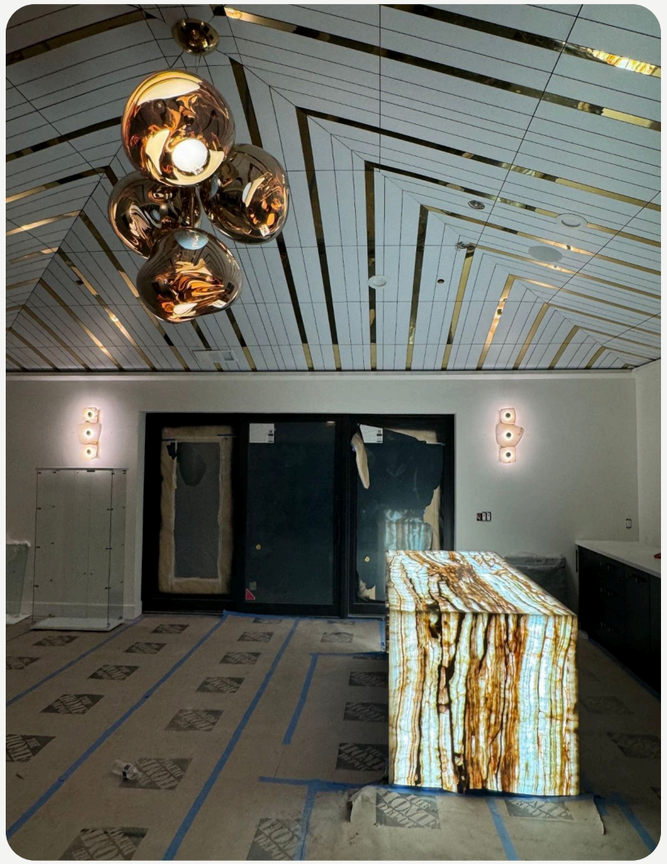

CUSTOM RESIDENTIAL

STONE THAT GLOWS.

Backlit onyx walls and a waterfall island. Every wire hidden.

LIGHTING DESIGN

LIGHTING THAT WAS PLANNED.

Where the light lands, what it's for, and wiring you never see.

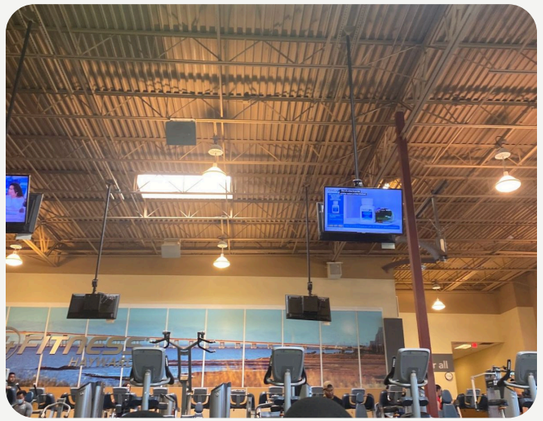

COMMERCIAL BUILD-OUTS

EMPTY SHELL → OPEN.

Restaurants, retail and gyms, wired to open on time.

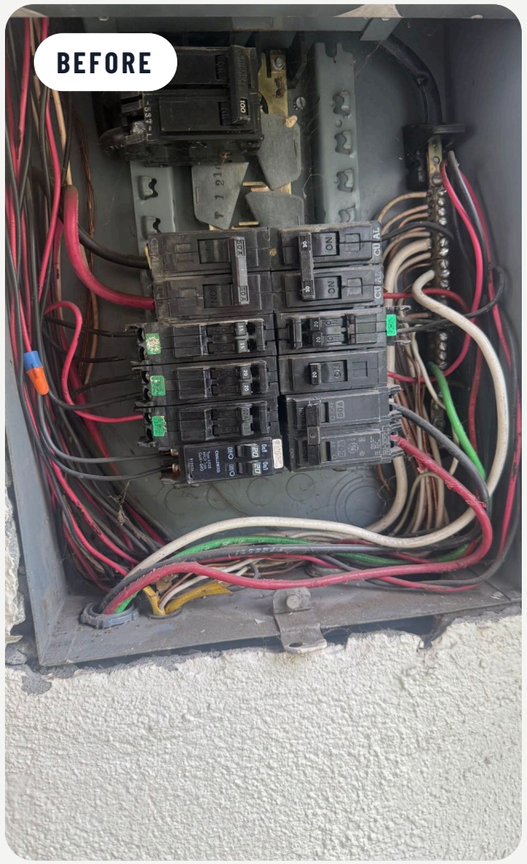

PANELS & POWER

FROM SCARY TO SAFE.

Panel swaps, meter banks, generators and battery backup.

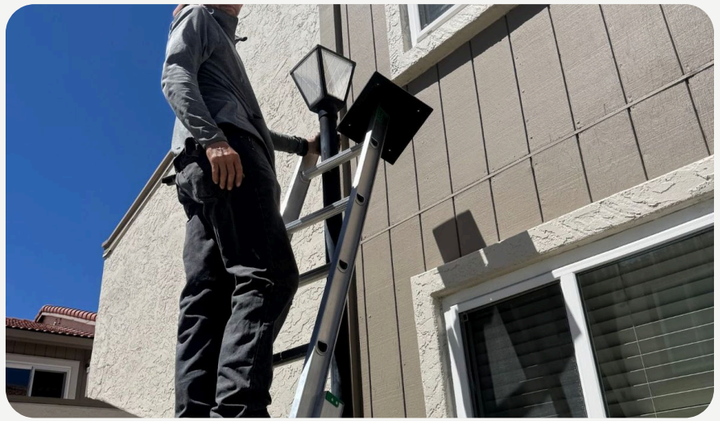

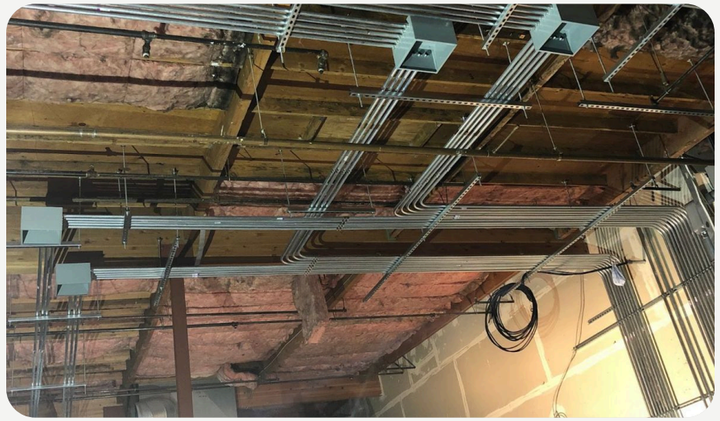

ON THE JOB

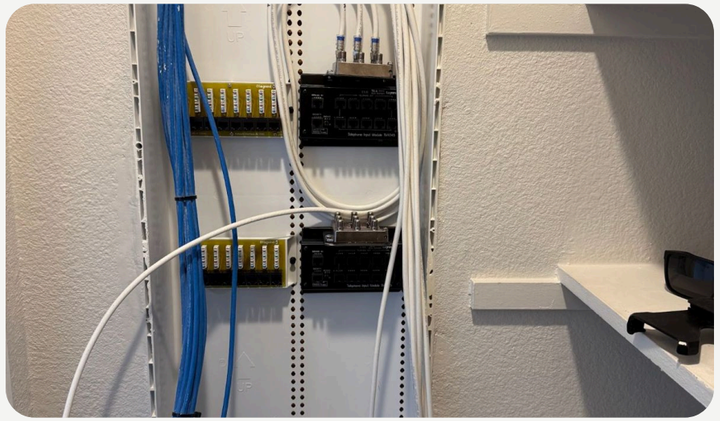

WHEN THE LIGHTS GO OUT, WE SHOW UP.

HOW YOU CAN HELP

A GOOD REFERRAL FOR LOSI.

- **HOMEOWNERS**
  Remodeling, adding an EV charger, or living with an old panel
- **BUILDERS & DESIGNERS**
  Custom homes and remodels with a vision that needs wiring
- **BUSINESS OWNERS**
  Opening or moving a restaurant, shop, gym or office
- **REALTORS & PROPERTY MANAGERS**
  Inspection flags, panel issues, tenant improvements

LISTEN FOR “Nobody wants to take this job” or “The breaker keeps tripping.”

THANK YOU, BNI PREMIERE

Q&A

Ask Losi anything. Panels, permits, that weird outlet at home.
